Programmer and System Engineer in **Research and Development** Department

Working in a research and development team for creation of a innovative and unique product in the market for wireless communications (WiFi), I worked, in a first period, on **embedded system** (ubnt, alix, pcengines), strongly customizing the operating system (ubnt, openwrt) and the softwares to manage authentication (hostapd, wpa-suplicant). After this first phase, I focused on the development **to flash** these devices and for large-scale production.

Also, we developed a complete solution for managing **hotspots**: I worked on server-side development to manage authentication, sessions log, signups, signals management from remote devices, intergration with our management software, payment via credit card and authentication via SMS, complying Pisanu law. As last task, I created a software for network monitoring. It is a **PyQT stand-alone** application, using internal django based API.

The technologies mostly used are Python/Django with PostgreSQL database on Debian OS virtualized on XEN

Social skills and competences

Working usually in a team, I have a constructive and collaborative relationship with the people around me, such as colleagues and collaborators. Sociable, friendly and good communication skills, my site is a source of continuing social contact and exchange with other technical and less technical people.

Organizational skills and competences

With good determination, I can work both in a team and individually managing independently my workflow.

Computer skills and competences

Because of **my passion for computing**, I have developed over the years a number of skills that vary in many areas of the same.

Since the years of higher education, beyond the academic success, I created and maintained an extra-curricular activity **above average**: among other initiatives in which I participated remember "The basic course on multimedia", "Exposcuola 2000 in Paestum", "Basic computer as tutor role", "Computer literacy course as tutor to senior people (over 65 years old)", "XI week of scientific and technological culture", "Pluto Meeting 2001" and "Main tutor of a group of other 6 people for the course of ITALIAN IMPROVING for new students in the project "Reception, Recovery, Empowerment in early grades"". In all the projects mentioned, I participated actively devoting time and effort in learning new things about the new information technology and other.

From my first computer, I had a certain passion for the **open source** world and all that concerns him: in fact I managed machines with **Linux** distributions such as RedHat 7.3, Slackware 7.1 up to machines to Debian (from version 3.0 to current ones). Through this experience I have gained some skill and knowledge in the management of Linux: bash scripting, configuring and compiling the kernel, network services, patching the kernel, C language. In addition to Linux, I daily use OSX. Given the continued use and my passion for computers I have in-depth study of the latter.

I was active as contributor to the writing of the guide <http://www.ubuntuemplice.org/> (version 6.06 and 7.10). In this project I was reviewer and author of several chapters, I administered the machine that hosts the site, wiki, blog and mailing list.

**I also have a great passion for the programming languages**: I know many of them in several areas such as Python, C, PHP, Java, LSL (Linden Scripting Language). I studied LSL during my work on **Second Life**: in fact I worked on many projects in the metaverse as Italian Assis <http://www.secundavita.it>, Milan and Marostica in "**Italia Vera**" project. I have a good knowledge of graphic applications (Gimp, Photoshop) and office tools such as Openoffice.org and iWork (for OSX)

Artistic skills and competences

- Learning the Spanish language by myself
- Amateur photos
- Music (hobby level)

Other skills and competences

- Curious by definition
- Music
- Willing to learn and study
- Attraction for science in general

Licence(s)

- Driving license type B.
- Operator license for amateur radio station class A (nr. 020122/AN), International callsign **IZ0OVB**

## Additional information

- comply with compulsory military service (referring to studies)
- Linux Registered User #399008
- ordinary member of the LUG Perugia
- AVIS (Blood Donor Italian Association) ordinary member
